# The Elevate Difference

## 40+ YEARS OF EXPERIENCE

Elevate is built on 40 years of history — proof that a commitment to the highest quality materials and trusted partnerships withstand the test of time. Today we offer a comprehensive roofing solutions that include all single-ply (EPDM, TPO, PVC) and multi-ply (SBS and BUR) systems with insulation and related accessories.

## ELEVATE LICENSED CONTRACTOR

Elevate Roofing Systems are installed by licensed contractors who prioritize quality workmanship and are passionate about installing roofing systems that withstand the test of the time. Licensed contractors are required to complete the Elevate Contractor Quality Seminars (training program) comprising theoretical and practical sessions, followed by job-site training to ensure all roofing products are installed efficiently and effectively.

**2500+**

## BACKED BY HOLCIM

At Holcim, we are leading the transition to sustainable building. With our solutions, we want to build circular cities that incorporate nature and are driven by sustainable buildings, smart infrastructure and recycling.

Sustainability is at the core of everything we do. We are taking a rigorous, science-driven approach – from climate to nature – to accelerate the shift to circular cities.

We are constantly pushing the boundaries of our sector by developing solutions to decarbonize building through research and development, and by fostering a unique open innovation ecosystem.
